

QUALITY AND SAFETY POLICY

EMEXFRUITS S.A.

At **EMEXFRUITS S.A.**, we have implemented a quality and food safety management system that allows us to effectively organize our company's operations. This system is based on fundamental pillars such as product quality, food safety, and customer satisfaction. We are committed to fostering continuous improvement and maintaining effective and proactive communication, all in compliance with national and international regulations.

Top management expresses its firm commitment to promoting excellence and food safety in order to meet this policy and the following objectives:

- 1. Satisfy** our customers by producing safe, authentic snacks with the highest quality standards.
- 2. Promote** and fund continuous improvements necessary to meet the goals within the integrated management system.
- 3. Implement** a continuous improvement process in quality, food safety, and security, using mistakes as learning opportunities to identify and minimize their causes or sources.
- 4. Encourage** collaboration and active participation at all levels of the organization in improving quality, food safety, and security through proactive and effective communication, both internal and external, ensuring the flow of information necessary to meet established standards.
